PRODUCT SELECTION FOR CEP

The growing complexity of international markets and their constant change are creating new demands daily, especially in the field of transport logistics.

With our versatile product innovations, we continue to complement our existing offer to meet the demands of our customers.

What do all our products have in common? They help you to process your mail, e-commerce and parcel business even more efficiently. With each product, you benefit from our industry knowledge and experience in product development.

ROLL- / MESH-CONTAINER

Our roll- and mesh containers have been used by many well-known postal companies every day for years.

They are high quality and therefore offer the longest life at low cost.
