

The aerospace industry poses various challenges every day. Our LKE roll-on/roll-off systems, aluminium containers and transport trolleys ensure problem-free and safe transport of your sensitive components - both indoors and outdoors.

We develop, design and manufacture the container and trolley systems in our own production facilities and invest our many years of experience in the process. Customised solutions and high-quality series products guarantee maximum transport safety and enable easy loading and unloading. Our professional standards ensure fast transfer processes, not only by air, but also by rail, road and sea.

## **INDIVIDUAL FOR EVERY COMPONENT**

Transport equipment and devices can be adapted to the individual geometry of the components to be transported and stored.

All transport systems are optimised for safe transport and ergonomic handling.

## **VERSATILE PORTFOLIO**

### **Lightweight aluminium containers:**

Flexible containers for the safe transport and storage of sensitive components in various sizes, easy to integrate into material flows.

### **Lightweight aluminium trolleys:**

Safe and robust trolleys with customised holders for various components.

### **Roll-on/roll-off systems:**

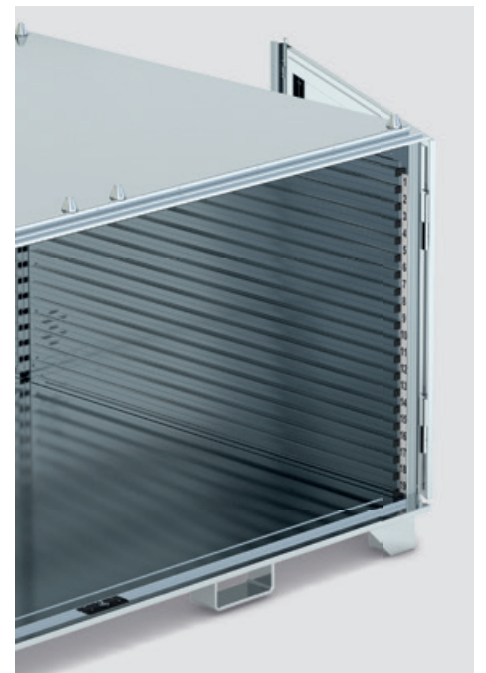

Weather-resistant containers for outdoor storage and transport with easy access to the parts via trolleys.

### **Trolleys for jigs and tools:**

Integrated solutions for transport and assembly in the work area.

### **ESD-protected trolleys:**

Protection against electrical discharges for sensitive parts with modular design.

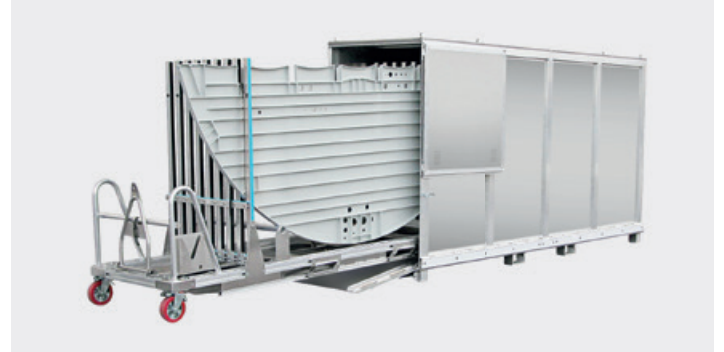

# LIGHT & STURDY SOLUTIONS FOR SENSITIVE AIRCRAFT COMPONENTS

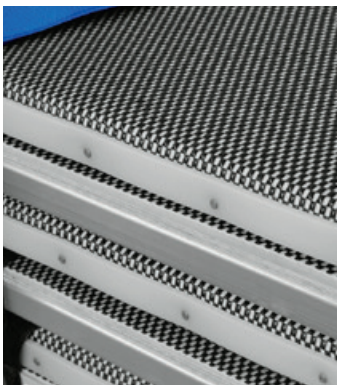

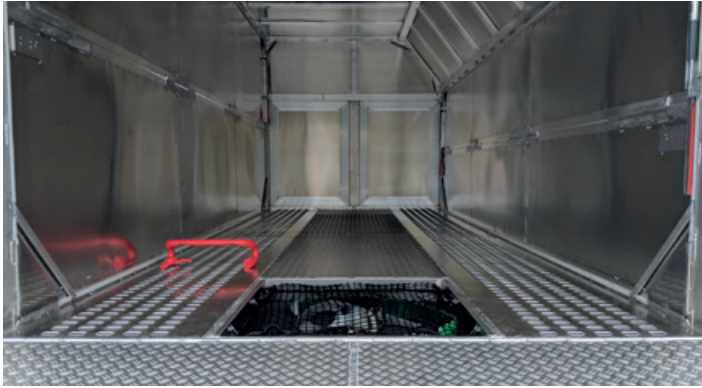

## FUTURE-ORIENTED HANDLING PRODUCTS

LKE aluminium containers, trolleys and roll-on/roll-off systems for multifunctional transport ensure smooth and safe transport, both indoors and outdoors.

## WE OFFER

- Highly customised solution concepts
- Innovative products and materials
- Comprehensive engineering capacities including own FE calculations
- Qualified consulting services
- State-of-the-art, certified and well-equipped facilities throughout Europe
- Support and advice in selecting the right transport system

# HIGHLIGHTS & BENEFITS

**SAFE & SECURE**

**LONG-LIFE (EXTENDED DURABILITY)**

**LIGHT-WEIGHT**

**IMPROVED HANDLING AND COMPONENT/PART ACCESSIBILITY (INCOMING INSPECTION, QA, ETC.)**

**MULTIPLY REUSABLE**

**WEATHER PROTECTED OR WEATHER-PROOF**

**OUTSIDE/OFFSITE STORAGE**

**ALSO FOR TEMPORARY/INTERIM STORAGE**

**PROTECTION AGAINST:**

- SPLASH/SPRAY WATER
- FOD (FOREIGN OBJECT DAMAGE)
- CORROSION
- UV-LIGHT
- DUST
- INSECTS
- FUNGUS

**ROLLABLE (OPTION)**

**ESD PROTECTION (OPTION)**

**SUSTAINABLE**

**ACCORDING TO OE STANDARD & QUALITY (I.E. AIRBUS)**

**DIN EN ISO 9001 AND DIN EN ISO 3834-2 CERTIFIED**
